EXPERIENCE

❖ Internship at DasInfomedia

oct - 2024 | may - 2025

Details: Contributed to web-based solutions, including the TeamCollaboration project, by developing responsive UI and backend services using Node.js, MongoDB , Express js and Bootstrap ReactJs. Worked on an AI sales agent project, building an Agentic Chatbot generator capable of task execution using custom tools and LLMs.

❖ Internship at Rachana Webtech

july - 2024 | sept - 2024

Details: As a Backend Developer at Rachana Webtech, developed scalable server-side applications using Node.js, Express.js, and Sequelize ORM. Implemented APIs, optimized MySQL databases, and integrated authentication with JWT, focusing on security best practice and seamless API integration. Also implemented role-based access control, pagination. industry standards for writing clean, modular, and maintainable code.

EDUCATION

❖ B.E. (Computer Engineering) |(8.59 - CGPA)

2021 - 2025

Gandhinagar Institute of Technology , Gandhinagar.

❖ H.S.C | (82%)

2020 - 2021

Sorath International School , Junagadh.

SKILLS

- ❖ **Frontend** : HTML , CSS , JavaScript , React JS.
- ❖ **Backend** : Node JS , Express JS.
- ❖ **Database** : MySQL , MongoDB.
- ❖ **Version Control / Tools** : Git , Github , Jira , Postman.

PROJECTS

❖ Scan2Menu – Digital Menu & Ordering System

Technologies: React, Node.js, Express, MongoDB, Mongoose, JWT.

Details: Engineered a contactless QR code-based menu system, enabling seamless order placement for restaurants and cafes. Developed a responsive React UI with a restaurant owner dashboard for full setup and a user-friendly menu interface for customers. Integrated Google Login for authentication and payment gateway for secure transactions. Built a secure Node.js and Express backend for order and menu management, integrating MongoDB with Mongoose and Socket.io for real-time updates.

❖ Wanderlust - Travel & Accommodation Listing Platform

Technologies: HTML, CSS, JavaScript , Node JS,EJS, Express JS, MongoDB.

Details: Implemented CRUD operations for rental properties, integrated Mapbox API for geospatial visualization, and developed a RESTful API for user reviews. Secured user authentication with Passport.js and optimized backend performance using Express.js.

HACKATHON

❖ Sheryians | Re-imagine Hackathon

Achievement - We are in Top 25 out of 700 Team , Recreated Tanishq ,Infosys, Adobe Firefly websites, demonstrating skills in web development, creativity, and teamwork.

❖ Oddo Combat Hackathon

Achievement - Acknowledged for participation with an official certificate from Oddo.
